PROFESSIONAL SUMMARY

Motivated Software Engineer & Full Stack Developer (Fresher) with hands-on experience in Python development, automation, REST API integration, and MERN Stack web applications. Completed two industry internships, a Diploma in Python Programming, and holds a strong foundation in OOP, DSA, data pipelines, and Agile workflows. Skilled in deploying applications on Linux environments with experience in Django, Nginx/Gunicorn, and server security. Eager to contribute to scalable backend systems and data engineering workflows.

TECHNICAL SKILLS

Languages:	Python (Advanced), JavaScript (ES6+), C, C++, Java (Basic), SQL, Bash/Shell Scripting
Frontend:	React.js, HTML5, CSS3, Bootstrap, Tailwind CSS, Redux (Basic), Responsive Web Design, Figma (Basic UI/UX)
Backend:	Python (Django, Flask), Node.js, Express.js, REST API Development, JWT Authentication, Error Handling, Gunicorn
Database:	MongoDB, MySQL, Firebase Realtime DB, Firebase Authentication, Database Design
Data & Automation:	Python Automation, Data Pipelines, NumPy, Pandas, Data Processing, ETL Workflows, Logging
DevOps & Servers:	Git, GitHub, Docker (Basic), Linux/Ubuntu, Nginx, Gunicorn, Vercel, Render, Netlify, CI/CD Pipelines
Security:	Server & Application Security Best Practices, JWT Auth, Input Validation, HTTPS, Environment Variables
Concepts:	SDLC, CRUD, OOP, DSA, Agile/Scrum, State Management, Code Review, Technical Documentation
Testing & Debug:	Postman, Unit Testing, Debugging & Troubleshooting, API Testing, Logging

INTERNSHIP EXPERIENCE

Python Developer Intern	NIM Technologies, Chennai 2025
- Developed Python scripts and automation tools to streamline internal development workflows and data-processing pipelines. - Built and consumed REST APIs using Python; contributed to backend services, Django-based modules, and ETL data workflows. - Deployed and configured backend services on Linux environments; supported Nginx/Gunicorn server setup and maintenance. - Performed debugging, code optimisation, and applied security best practices under senior developer mentorship. - Used Git for version control; participated in Agile sprint reviews, code walkthroughs, and stand-up meetings. - Maintained clear technical documentation and project reports aligned with development standards.	
IBM Cognos Tool Operations Intern	IBM (Industry Internship) 2024
- Worked on IBM Cognos BI platform; assisted in dashboard configuration and automated report generation. - Gained exposure to enterprise data visualisation tools, analytics workflows, and professional project delivery. - Collaborated with cross-functional teams to ensure timely, high-quality delivery of BI solutions.	

PROJECTS

Global Chat Application	React.js Firebase JavaScript Vercel
- Real-time messaging app with Firebase Realtime DB, secure user auth, session handling, and responsive UI. - Deployed via Vercel with GitHub CI/CD pipeline; wrote clean, well-documented component code.	
Full Stack E-Commerce Website	React.js Node.js MongoDB Firebase
- Complete e-commerce platform: product catalog, cart, order management, and optimised REST API responses. - Integrated secure auth, Firebase backend, and mobile-first Tailwind CSS reusable React components.	
Student Internship Registration Portal	Node.js Express.js MongoDB Django (Backend Module)
- Full-stack portal for internship registration with RESTful CRUD APIs, form validation, and MongoDB handling. - Built admin dashboard with filter/search to monitor and manage student application records.	
Python Automation & Data Pipeline Scripts	Python NumPy Pandas REST APIs
- Developed automation scripts for internal workflow streamlining, file handling, and data processing tasks. - Built data pipeline modules consuming and transforming REST API responses using Pandas and NumPy.	

EDUCATION

B.E — Computer Science & Engineering Vins Christian College of Engineering, Nagercoil	2023 – 2027 CGPA: 8.5+
Diploma in Python Programming — Certificate Course	2023
Python fundamentals, OOP, file handling, data structures, NumPy/Pandas; automation & data-processing mini-projects.	

CERTIFICATIONS & ACHIEVEMENTS

Certifications	Achievements
- Full Stack Development — NIM Technologies - IBM Cognos Tool Operations Internship - Diploma in Python Programming — 2023	- Top 500 / 30,000+ — Wadhvani Full Stack Dev Program (National) - Top 500 / 25,000+ — TN Skill / Naan Mudhalvan State Hackathon
